SUMMARY

Detail-oriented and professional with over 7 years of experience spanning **Front-End Development, Data Management, and Administrative Support**. Specialized in building responsive, scalable, and visually engaging web applications using **VueJS, ReactJS, PHP, and NodeJS**, with a strong focus on **UI/UX best practices, real-time API integration, and performance optimization**. Demonstrated success in **client communication, project management, documentation, and technical mentorship across aviation, admin, and travel industries**. Complemented by hands-on experience in **administrative operations, data entry, and reporting**, showcasing strong proficiency with **MS Office Suite, Google Workspace tools, and remote collaboration**. Committed to delivering secure, efficient digital solutions while ensuring operational excellence and continuous process improvement.

KEY SKILLS & EXPERTISE

Front-End Development & UI/UX

- Expertise in VueJS 2 & 3, ReactJS, JavaScript, HTML5, CSS3, and Bootstrap, Tailwind CSS
- Responsive and mobile-first design implementation
- Cross-browser compatibility and performance optimization
- UI/UX design principles for intuitive user interfaces
- Experience with Material UI, Storybook, and Highcharts VUE

Back-End & API Development

- Working knowledge of binding data from NodeJS, PHP, and Firebase
- RESTful API integration and real-time data synchronization

Security & Compliance

- Data privacy compliance
- Authentication, authorization, and secure API handling
- Knowledge of AWS security and cloud infrastructure

Creative & Design Skills

- Strong eye for visual aesthetics and user-friendly designs
- Experience with Canva, Adobe, Figma and wireframing tools
- Custom dashboard and data visualization design

Project Management & Collaboration

- Strong experience in client communication and requirement gathering
- Agile development methodologies and sprint planning
- Issue resolution and contract management
- Documentation and version control (Jira, Bitbucket, Trello, Git, Github, Gitlab)

WORK EXPERIENCE

Front-end Developer, Digiplus Interactive Corp.

November 2025 - Present

- Write clean, maintainable, and well-designed code following industry best practices using VueJS.
- Produce detailed requirement tickets and technical specifications for Back Office systems supporting DigiPlus products.
- Developed and implemented the Loyalty Module for ArenaPlus Version 2 during the initial phase after transitioning from the LDD (Back Office) team to APRD.
- Designed and implemented front-end features and enhancements for ArenaPlus Version 1 and ArenaPlus Version 2 based on business and product requirements.
- Collaborated with the APRD team to resolve post-deployment production issues, perform UI Acceptance Testing (UAT), and implement UI alignment improvements to ensure a seamless user experience.
- Developed the SABA Lite – Altenar API integration by creating a new user interface aligned with SABA's design standards while utilizing Altenar APIs instead of widget-based implementations.
- Implemented the SOBOT Message Notification feature for ArenaPlus Version 1, enabling users to automatically receive Help and Support notifications sent by the Customer Service team.
- Managed and successfully delivered high-priority (P0 and P1) tickets within strict deployment timelines, ensuring production readiness and zero critical issues before end-of-day releases.
- Troubleshoot, test, and maintain core product software to ensure optimal performance, functionality, and system reliability.
- Collaborate with cross-functional teams, including Product Owners, QA Engineers, UI/UX Designers, and Backend Developers, throughout the software development lifecycle.
- Utilize AI-assisted development tools to improve productivity, code quality, debugging, and development efficiency.

Projects: ArenaPlus Version 1 & Version 2, SABA Lite – Altenar API Integration, and Back Office Systems

Technologies: *VueJS, JavaScript (ES6+), HTML5, CSS3, REST APIs, Git, SourceTree, Figma, Cursor AI, and Claude AI.* Collaborated closely with the Backend Development Team utilizing Spring Boot, MySQL, and Maven to deliver scalable, high-quality, and production-ready solutions.

VueJS Developer, ThinkBIT Solutions

July 2025 - October 2025

- Write “clean”, well-designed code.
- Produce detailed specifications.
- Troubleshoot, test and maintain the core product software and databases to ensure strong optimization and functionality.
- Contribute in all phases of the development lifecycle.
- Follow industry best practices.
- Develop and deploy new features to facilitate related procedures and tools if necessary
- Project: FBM Project
 - Worked on front-end features and improvements for a bingo game system using *VueJS 3, Tailwind CSS, Pinia, REST APIs, Git* and *Github* in collaboration with a Laravel/PHP-based backend team.

Front-End Developer | Project Manager , Global JD Holdings, Inc.

Dec 2021 - June 2025

- Collaborated on the Aerovault Tracking System (ATS) — an aviation records management and tracking tool, improving operational efficiency for aviation clients utilizing *ReactJS, Redux, Axios, NodeJS, Storybook, Material UI*

WORK EXPERIENCE

- Contributed to the Enterprise Resource Planning (ERP) platform specialized for aviation industries (airlines, MROs, manufacturers, and airport operators), focusing on UI consistency and data integration.
- Led both front-end development and project management for the Sapphire Portal (CMS & reporting system), utilizing *NodeJS, Bootstrap Vue, Highcharts Vue, Vue CLI, Vue Router, and Vue 2 & 3*, delivering a robust platform for advanced analytics and content management. I've worked closely with both local and international clients such as *Victory Liner, Royal Air Philippines, CreaTV, TBN, Warner Bros, M2M, and other US-based content providers and other local Airlines here in PH.*
- Developed the Sapphire In-Flight Entertainment (IFE) System, a customizable multimedia platform for airlines, buses, hotels, airports, and ferries, using *VueJS, Vanilla JS, and PHP*.
- Designed and implemented responsive, user-friendly UI components, ensuring seamless experiences across all devices and screen sizes.
- Optimized performance by refactoring code and applying best practices, significantly reducing load times and improving system responsiveness.
- Integrated RESTful APIs and real-time data synchronization to enhance interactivity and reliability.
- Managed client communications and project coordination, ensuring alignment between technical teams and stakeholders while delivering milestones on schedule.
- Maintained comprehensive project documentation and acted as the main point of contact for issue resolution and contract management.
- Mentored OJT students and junior developers, fostering a culture of collaboration and continuous improvement.
- Ensured quality assurance and debugging, maintaining compliance with performance, security, and scalability standards.

Front-end Developer, Sentravel Vietnam (Part Time Job)

Sept 2020 - Feb 2022

- Co-developed a booking system for flights, hotels, and tours using *VueJS, PHP, and Vanilla JS*.
- Designed the Admin Portal, a reporting and CMS tool, ensuring seamless *API* data syncing, tools used *NodeJS, Bootstrap Vue, and Highcharts VUE, VUE CLI, VUE Router, Axios, Vue 2*.
- Created custom dashboards and data visualization to provide users with insightful analytics.
- Ensured cross-browser compatibility and responsive design for an optimal user experience.
- Worked closely with designers and backend developers to enhance UI/UX workflows.
- Ensuring *client is always updated and aligned* with the project's status

Programmer & Systems Analyst, Dornier Technology, Inc.

May 2018 - Dec 2021

- Developed Sapphire In-Flight Entertainment System, a customizable IFE system for airlines, buses, hotels, airports, and ferries, using *VueJS, Vanilla JS, and PHP*.
- Led development of Sapphire Portal, a reporting and CMS tool, utilizing *NodeJS, Bootstrap Vue, and Highcharts VUE, VUE CLI, VUE Router, Axios, Vue 2*.
- Designed and maintained the Old Sapphire Website, the official website for the project.
- Contributed to the Fleet Technical Management System, an aircraft log and computation tool.
- Implemented dynamic UI components to improve navigation and data presentation.
- Collaborated with backend developers to ensure smooth API integration.
- Developed custom reusable components to streamline development processes and maintain consistency across applications.

Data Entry, Upwork (Part Time Job)

May 2019 - July 2019

- Accurately *input and update data* into spreadsheets.
- *Convert PDF* into *WORD* and *EXCEL* Sheet.
- Create basic reports or summaries based on entered data.
- Proficiency in *MS Excel, WORD, Google Sheets* and other tools

WORK EXPERIENCE

Assistant Admin Staff, (Part Time Job - US Time, Night Shift)

March 2018 - May 2018

- Provide general administrative as *data entry*.
- *Maintain* and *organize* office documents and files.
- Assist in the preparation of reports and memos.
- Prepare minutes in every meeting.
- Perform other duties as may be assigned by the admin officer.
- Proficient in *MS Office (Word, Excel, PowerPoint, Outlook)*.
- Strong organizational and multitasking skills.
- Ability to work independently and as part of a team.

OJT Web Programmer, Dornier Technology, Inc.

June 2017 - Sept 2017

- Completed **420 hours** of hands-on training, developing a mobile application for the company.
- Co-developed MRO Mobile System, an app providing aviation-related information.
- Utilized *ionic framework* to create a hybrid mobile application.
- Conducted database management using *Firebase*, ensuring secure and efficient data handling.
- Developed and tested user authentication and security features.

EDUCATION

Bachelor of Science in Information Technology with Area Specialization in Web Developement

2014 - 2018

Holy Angel University

- Major in Web Development
- 2018 : Dean's Lister

Highschool Diploma

2010 - 2014

- Holy Angel University
- 2010 : With Honors
- 2011 : With Honors

Primary School

Class of 2010

- M. Nepomuceno Elementary School
- 2008: Best in Designing Concept
- 2008: Best in Design

ADDITIONAL INFORMATION

- **Technical Skills:** Front-end Coding, Website Design & UI Interface, Canva, Design, Layout, MS Office Tools, Google Tools (Forms, Docs, Sheets etc.)
- **Languages:** English, Filipino

TRAININGS/SEMINARS AND CERTIFICATIONS

- **Data Privacy Compliance** - Limitless Power Coach Training & Consultancy Inc. (2018)
- **AWS Summit Online** - AWS Webinar (2020)
- **AWS Data, Database, and Analytics Online Series** - AWS Webinar (2020)
- **Advanced SEO** - Holy Angel University (2017)
- **DevExpress Plugins for Web Development** - Holy Angel University (2017)
- **Women Rock IT Webinar** - Holy Angel University (2017)
- **CSS Processor & Web Security Measures** - Holy Angel University (2016)
