SUMMARY

Frontend Developer with 8 years of experience building responsive, scalable web applications with Vue.js, React and TypeScript for the gaming, aviation, travel and enterprise industries. Strong in REST API integrations, reusable components and production releases, with hands-on project coordination for local and international clients such as Royal Air Philippines, Victory Liner and Warner Bros. Currently building ArenaPlus features in Vue 3 and TypeScript at DigiPlus Interactive Corp.

TECHNICAL SKILLS

- **Languages and Frameworks:** JavaScript (ES6+), TypeScript, Vue.js (Vue 2, Vue 3, Composition API), React, HTML5, CSS3, Ionic
- **State, Routing and Data:** Pinia, Vuex, Redux, TanStack Query, Vue Router, REST APIs, Axios, WebSocket, Authentication and Authorization
- **UI and Styling:** Tailwind CSS, Bootstrap, BootstrapVue, Material UI (MUI), Storybook, Highcharts, Responsive and Mobile-First Design, Cross-Browser Compatibility
- **Backend and Databases:** Node.js, Express.js, PHP, MySQL, Firebase
- **Tools:** Git, GitHub, GitLab, Bitbucket, SourceTree, Vite, Vue CLI, npm, Swagger, Postman, Jira, Trello, Figma, Canva, VS Code, Huawei Cloud
- **AI-Assisted Development:** Claude AI, Cursor AI, Prompt Engineering
- **Professional:** Project Coordination, Requirements Gathering, Client Communication, UAT and FAT Testing, Technical Documentation, Agile and Sprint Planning, Mentoring

PROFESSIONAL EXPERIENCE

Frontend Developer | DigiPlus Interactive Corp. **Nov 2025 - Present**

- Delivered 20+ frontend enhancements across ArenaPlus Versions 1 and 2, improving user experience and system functionality.
- Built the ArenaPlus Loyalty Club end to end for desktop and mobile: tier progression, rank-up UI and refer-a-friend statistics.
- Built the SABA Lite - Altenar API integration with a new UI aligned to SABA's design standards, using Altenar APIs instead of widgets, then grew it into horse and greyhound racing, live-streamed races, and parlay and singles wagering.
- Implemented SOBOT message notifications for ArenaPlus v1 on web and mobile, so users automatically receive Help and Support messages from Customer Service.
- Building the Transactions module and sportsbook bet slip for a new retail-focused ArenaPlus app on Vue 3 and TypeScript.
- Built Community v2 post binding, hashtags and follower profiles; shipped brand partnership updates, PAGCOR compliance and betting-rule changes, and iOS/Android login fixes.
- Delivered high-priority P0 and P1 tickets within strict deployment timelines with zero critical issues at end-of-day releases; resolved post-deployment issues and ran UI acceptance testing (UAT).
- Worked with 10+ teammates across Product, QA, UI/UX and Backend (Spring Boot, MySQL), and wrote requirement tickets and technical specifications for Back Office systems.
- Use Claude AI and Cursor AI daily, with project rule files (such as CLAUDE.md) that keep code style and automation boundaries consistent.

Tech: Vue.js, TypeScript, JavaScript, Pinia, Vuex, TanStack Query, Tailwind CSS, REST APIs, Axios, Git, SourceTree, Figma

Vue.js Developer | ThinkBIT Solutions **Jul 2025 - Oct 2025**

- Built frontend features and improvements for Bingo Pilipino, a bingo game system, with Vue 3, Tailwind CSS and Pinia.
- Integrated frontend features with Laravel/PHP backends through REST APIs.
- Wrote technical specifications and supported testing, troubleshooting, deployment and maintenance across multiple releases.

Tech: Vue.js (Vue 3), JavaScript, Tailwind CSS, Pinia, REST APIs, Laravel, PHP, Git, GitHub, Figma

Frontend Developer | Global JD Holdings Inc. **Dec 2021 - Jun 2025**

- Led frontend development and project coordination for Sapphire Portal, a CMS and reporting platform, and the Sapphire In-Flight Entertainment (IFE) System, including the sync connection between them.
- Worked with local and international clients and content partners, including Royal Air Philippines, Victory Liner, Warner Bros, TBN, CreaTV and M2M.
- Helped deliver the Aerovault Tracking System, an aviation records management and tracking tool, using React, Redux, Axios, Node.js, Storybook and Material UI.
- Contributed to an ERP platform for airlines, MROs, manufacturers and airport operators, focusing on UI consistency and data integration.
- Built the Sapphire Website, Aerostrategies Timesheet Portal and Sapphire City Website, covering marketing, timesheet management and blockchain real estate.
- Acted as main point of contact for client communication, requirements, documentation and issue resolution.
- Mentored OJT students and junior developers while maintaining delivery quality on production systems.

Tech: Vue.js (Vue 2, Vue 3), React, Redux, JavaScript, BootstrapVue, Highcharts, Vue Router, REST APIs, Axios, Swagger, Node.js, Express.js, Storybook, Material UI, Git, Figma

Frontend Developer (Part-Time) | Sentravel, Ho Chi Minh City, Vietnam **Sep 2020 - Feb 2022**

- Co-developed a booking system for flights, hotels and tours with Vue.js, PHP and JavaScript.
- Designed the Admin Portal, a reporting and CMS tool, with custom dashboards and Highcharts visualizations synced through REST APIs.
- Ensured cross-browser compatibility and responsive design, and kept the client updated on project status.

Tech: Vue.js (Vue 2), JavaScript, PHP, Node.js, BootstrapVue, Highcharts, Vue Router, Axios, Swagger, Git

Programmer and Systems Analyst | Dornier Technology Inc. **May 2018 - Dec 2021**

- Developed the Sapphire In-Flight Entertainment (IFE) System, a customizable multimedia platform for airlines, buses, hotels, airports and ferries, using Vue.js, JavaScript and PHP.
- Led development of the Sapphire Portal reporting and CMS tool with Vue 2, Node.js, BootstrapVue, Highcharts, Vue Router and Axios.
- Contributed to the Fleet Technical Management System (aircraft logs) and maintained the original Sapphire website.
- Built reusable components and integrated backend APIs, improving development speed and UI consistency.

Tech: Vue.js (Vue 2), JavaScript, PHP, Node.js, BootstrapVue, Highcharts, REST APIs, Swagger, Git

EARLIER EXPERIENCE

Data Entry Specialist (Part-Time) | Upwork | May 2019 - Jul 2019
Entered and validated spreadsheet data, converted PDFs to Word and Excel, and prepared summary reports.

Administrative Assistant (Part-Time, US Night Shift) | Mar 2018 - May 2018
Maintained office documents and files, and prepared reports, memos and meeting minutes.

Web Programmer (OJT) | Dornier Technology Inc. | Jun 2017 - Sep 2017
Completed 420 hours co-developing the MRO Mobile System, a hybrid aviation app, with Ionic, Firebase and user authentication.
